

The background is a blue-tinted collage featuring various business and technology-related icons. These include a smartphone displaying a building floor plan, a network diagram with nodes and connecting lines, a hand holding a smartphone, a person in a suit, a globe, a bar chart, and a group of people silhouettes. The overall theme is modern business and digital connectivity.

Company Profile

# Effective Investments Group

Together we change the future!

## About our group of companies

Effective Investments Group was founded in 2007. The corporate center of the group of companies operates in various areas of economy: agriculture, pulp industry, food industry, woodworking, gas industry, energy, creative industry and healthcare. Igor Liski is the Chairman of the Supervisory Board of the Effective Investments Group.

Our mission is to develop Ukrainian enterprises in strategic sectors for the country's economy. We strive to create better projects and a better future, following the principles of the circular economy and the development of the country's creative potential.

## Igor Liski

Chairman of the Supervisory Board of the Effective Investments Group.

The world changes you, you change the world. With every your decision, with every next step to success. Nevertheless, how to make the right move to create an idea and implement it effectively?

We made a decision and chose our top-priority. Investments in modern technologies, newest equipment – natural, high quality product. Ukrainian export and growth of the international image of the country due to the dedication and professional competence of our specialists. We create unique projects; we find the right solutions, we produce ecologically clean production, improve our technologies and develop all processes. We are open to the new, but reliably protect our own values.

I strongly believe that we will create a very successful business, because our achievements form the success of the country. Making our companies prosperous we transform Ukraine and make it thrive.

Moreover, cooperation with Effective Investments Group is always the right decision. We generate ideas, implement effective solutions – we create the future.

The future depends on trustworthy business. We feel responsibility for the development of Ukraine, so we invest in companies that are capable significantly influencing of our country's economy.

— Igor Liski

We focus on three principles when choosing a project: the uniqueness and innovativeness of the idea, the level of investment efficiency and the environmental responsibility for implementation.

# BEEHIVE

STANDARD

## Beehive

The newest Ukrainian enterprise with the largest production capacity in the country. The company deals with the processing of high-quality monofloral and polyfloral honey. The company's management system complies with the international quality certificate FSSC 22000, which guarantees the safety of all our products.

A multi-level quality control system has been adopted at the Beehive plant, and a specialized laboratory in Germany provides the final conclusion on compliance with the international standards. We bring the production of honey to a new level in Ukraine, introduce progressive solutions in Ukrainian beekeeping industry and build a socially responsible business.

We operate in accordance with the Beehive Standard, which requires strict adherence to honey collection, quality control and processing technologies, as well as a special approach to doing business and building relationships with partners.

**ROYAL ACACIA**  
select natural honey
